ABSTRACT

This book contains nearly 2,700 quotations related to education in all its traditional and non-traditional forms and spanning over 3,000 years. It is organized alphabetically by topic, with over 400 topics from "abacus" to "youth." The quotations come from over 1,300 authors, including ancient oriental philosophers, Greek and Roman sages, thinkers from the Renaissance and Reformation, 19th and 20th century writers, and current scholars. Each quotation includes the author's name and, if applicable, the publication or media from which the quotation was taken. An author index is included. (MDM)
